

STREAMALL PLUS

Delivering Ministry at the Speed of Light

STREAMALL PLUS is a ministry initiative of Sampson Resources that enables Baptist Association churches to have 24/7 online streaming access to the entire Sampson Resources online catalog of programming at www.sampsonresources.com for ONE (1) year. Each church receives a MASTER PASSWORD for staff and members to use for an entire year. They simply join as a group under the auspices of their host Association whose director is a member of the Southern Baptist Conference of Associational Directors.

(Directors who are not members of SBCAL can join for \$25 at www.sbc.org.)

Sampson's primary focus is to make quality programming available to churches of all sizes—especially small and medium-small churches—at a very low cost during this financial stress caused by COVID-19.
